Stocks of leaf tobacco, by types and groups of grades	4-11
Stocks of Burley tobacco, by groups and qualities	12
Stocks of leaf tobacco, by types, showing separately quantities owned by dealers and manufacturers	13
Conversion factors for adjusting for losses in weight	14
Stocks of leaf tobacco, by types, converted to a FARM-SALES-WEIGHT equivalent	15
Stocks of leaf tobacco, summary by types	16

EXPLANATION OF GROUP SYMBOLS

GROUPS OF TYPES 11, 12, 13, and 14:
- A-Wrappers
- B-Leaf and smoking leaf
- C-Cutters
- X-Lugs and primings
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 21, 22, 23, and 24:
- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs
- S-Scrap
- N-Nondescript

GROUPS OF TYPE 31:
- A-Wrappers
- B-Bright leaf, red leaf, and tips
- C-Lugs and cutters
- X-Trash and flyings
- S-Scrap
- N-Nondescript

GROUPS OF TYPE 32:
- B-Heavy leaf or dull crop
- C-Thin leaf or bright crop
- X-Seconds and ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 35, 36, and 37:
- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs
- S-Scrap
- N-Nondescript

GROUPS OF TYPE 41:
- B-Binders or tops
- C-Fillers (farm wrappers)
- X-Stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 42, 43, and 44:
- C-Fillers (farm wrappers)
- X-Stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPE 46:
- C-Superior
- X-Inferior
- Y-Defectuoso
- S-Scrap (Picadura)
- N-Nondescript

GROUPS OF TYPES 51, 52, and 53:
- A-Wrappers
- B-Binders, seconds, and brokes
- C-Fillers and short darks
- X-Stemming grades
- Y-Sand-leaf fillers or ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 54 and 55:
- B-Binders
- C-Fillers
- X-Stemming grades
- Y-Sand-leaf fillers or bottom leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPE 56:
- B-Binders
- C-Fillers
- X-Stemming grades
- Y-Ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 61 and 62:
- A-Wrappers
- B-Stout Wrappers and binders
- C-Fillers or tips
- X-Filler brokes
- S-Scrap
- N-Nondescript

GROUPS OF TYPES 81, 82, and 83:
- A-Wrappers
- C-Fillers
- S-Scrap

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS

Total Leaf Stocks Show Increase Over Last April 1

Stocks of all types [1] of leaf tobacco owned by dealers and manufacturers in the United States and Puerto Rico totaled 2,867,482,000 pounds on April 1, 1946 [2] compared with 2,735,813,000 on April 1, 1945 -- an increase of 132 million pounds. Between January 1 and April 1, 1946 total stocks increased about 56 million pounds.

Production estimates for the 1945 crop now stand at 1,198 million pounds, practically all of which had entered stocks by April 1 except for Maryland tobacco. Approximately 525 million pounds of last year's crop were delivered or marketed during the first quarter of this year.

For the Southern types, flue-cured, Burley and Maryland stocks were larger than a year ago. On the other hand, fire-cured leaf holdings dropped sharply and dark air-cured stocks were slightly lower. For cigar-leaf tobacco, total stocks of the binder types increased about 4 million pounds from April 1, 1945, shade grown wrapper stocks were unchanged, but stocks of the domestic filler types showed a decrease except for Puerto Rican held in the United States. Cuban leaf stocks were greater than a year ago.

Holdings of the Commodity Credit Corporation on April 1, 1946 were reported as 120 million pounds. All but 124 thousand pounds of these stocks consisted of flue-cured. On April 1 last year Commodity Credit Corporation stocks totaled 171 million pounds.

Stocks reported as owned by dealers on April 1, 1946 were 347 million pounds compared with 2,520 million pounds for manufacturers. Dealers stocks represented approximately 9.8 percent of the holdings in the Southern types (11-37) whereas they reported around 31 percent of the domestic cigar leaf types (41-62).

1/ Figures quoted for type totals in this summary are the sums of unstemmed and stemmed leaf, as reported. Tables in the body of the report show stocks in detail, subdivided according to recognized groupings; stocks on a farm-sales-weight basis; and stocks owned by dealers and manufacturers, separately.

2/ The general instructions for filing the tobacco stocks reports, required of dealers and manufacturers by the United States Department of Agriculture, specify that the report shall be made as of the opening of business on the first day of each quarter.

CIGARETTE-LEAF STOCKS

Flue-cured, Burley, Maryland and Turkish Stocks All Above Year Ago Level

Stocks of flue-cured tobacco on April 1, 1946 totaled 1,252 million pounds compared with 1,208 million a year earlier -- an increase of 44 million pounds. Flue-cured stocks decreased around 245 million pounds during the first quarter this year. Only about 12½ million pounds entered stocks through sales after January 1. Stocks of Type 11 were 462 million pounds, Type 12, 422 million, Type 13, 254 million and Type 14, 114 million.

Burley stocks were up 208 million pounds from the previous quarter and climbed to the highest level on record for April 1. Dealers and manufacturers reported 939 million pounds of Burley tobacco which is 81 million pounds above the next highest April 1 figure (1940) and 95 million above a year ago. About 350 million pounds of Burley tobacco entered stocks through the auction markets during the quarter. Although disappearance has increased sharply, expansion in Burley production during the past two years has been much greater than the disappearance.

Maryland leaf on hand April 1, 1946 amounted to 34.7 million pounds as compared with 26.8 million on April 1, 1945. Only a negligible amount of Maryland tobacco entered stocks during the first quarter and holdings decreased 6 2/3 million pounds from January 1, 1946.

Foreign-grown cigarette and smoking tobacco (Turkish and other, Type 90) totaled 85.5 million pounds, or approximately 11 million pounds above stocks of this type on January 1, 1946. This is the highest April 1 stocks for Type 90 since 1941 and 36 million above the April 1 figure a year ago.

DARK TOBACCO STOCKS

Fire-cured Stocks Down Sharply From Last April 1
Dark Air-cured Shows Slight Decrease

Fire-cured stocks were down over 25 percent from a year ago. Comparative stocks were 132.6 million for April 1 this year as against 180.2 million pounds on April 1, 1945. The 1945 production of fire-cured tobacco, however, was 12 percent below 1944 and the lowest on record. All of the 1945 crop should have been in stocks by April 1, 1946. Reported stocks by types were: 21.8 million pounds of Virginia fire-cured, 82.9 million of Eastern District and 27.9 million Western District Kentucky and Tennessee fire-cured, and 69 thousand pounds of Henderson Stemming or Northern fire-cured.

Dark air-cured stocks totaled 72 million pounds as compared with 73.8 million pounds on the same date last year -- a decrease of 1.8 million pounds. Markets in the dark air types sold around 31 million pounds between January 1 and April 1 this year. Of the total dark air-cured stocks reported on April 1, 1946, One Sucker represented 40.4 million, Green River 27.9 million, and Virginia sun-cured 3.7 million pounds.

CIGAR-LEAF STOCKS

Domestic Cigar Filler-Leaf Stocks Lower Except Puerto Rican Binders Up Slightly; Shade Wrappers Unchanged From Last April 1

Total stocks of cigar leaf types of tobacco on April 1 were 326 million pounds of domestic types including Puerto Rican, and 24.3 million pounds of foreign grown cigar leaf. This does not include stocks of Sumatra and Java leaf held in the foreign trade zone.

Cigar filler stocks of the domestic types including Puerto Rican were reported as 184 million pounds this April 1 compared with 190 million on April 1, 1945 -- a decrease of about 6 million pounds. Practically all of the 1945 crop of the Pennsylvania and the Ohio filler types entered stocks between January 1 and April 1. Trade sources reported around 3 million pounds of Pennsylvania seedleaf were destroyed by fire during the first quarter. Of the separate filler types, Pennsylvania seedleaf stocks were reported as 107 million pounds, the Ohio types combined 28.4 million, and Puerto Rican 48.6 million pounds of which 28.4 million were in the Continental United States and 20.2 million on the Island.

Stocks of cigar binder leaf types totaled 126.7 million pounds compared with 122.5 million on April 1, 1945. The April 1 stocks were approximately 26 million pounds above January 1, 1946. Binder stocks were divided as follows: 29 million pounds of Connecticut Broadleaf; 20.8 million of Connecticut Havana seed; 2.7 million of New York and Pennsylvania Havana Seed; 39.3 million of Southern Wisconsin; 34.7 million of Northern Wisconsin and 147 thousand pounds of Georgia and Florida sun-grown.

Shade-grown wrapper stocks were 15.6 million pounds this April 1 -- unchanged from a year ago. Connecticut shade-grown stocks amounted to 11 million pounds and Georgia and Florida shade-grown 4.6 million pounds.

Stocks of foreign grown cigar-leaf on April 1, 1946 included 22.3 million pounds of Cuba (Havana); 1.8 million of Sumatra and Java; only 11 thousand pounds of Philippine Islands (Manila), and 251 thousand pounds of foreign grown cigar-leaf not otherwise classified.

Miscellaneous Domestic stocks were 1.5 million pounds. Type 71, Eastern Ohio, stocks were 76 thousand pounds, Perique 590 thousand pounds and Other Miscellaneous Domestic 870 thousand pounds.

Table 1.-Stocks of leaf tobacco, by types and groups of grades, owned by dealers and manufacturers, April 1, 1946, compared with January 1, 1946 (REPORTED WEIGHT)

1/ Subject to revision.

2/ See Supplementary Burley report on page 12.

3/ Most of the stocks in the X and Y groups will go into scrap chewing manufacture as well as part of that included in the scrap group.

4/ Includes Puerto Rican on the Island, Type 46.

5/ Type 84.-Other foreign-grown all shown in the C group.

6/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

7/ Does not include stocks owned by Netherlands Indies Produce Corporation held in the free trade zone.

* Revisions in January 1 report.

Total all types	11-90	2,100,989	419,736	2,520,725	292,529	54,228	346,757	2,867,482

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis. Figures are as reported to date; no revisions of this table will be made.
2/ The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown in the manufacturers' column also include stocks purchased under agreement with the Commodity Credit Corporation which are earmarked for export and are not actually available to manufacturers; these stocks are reported as approximately 120 million pounds, 124 thousand of which consist of fire-cured. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. The table should therefore be considered as representing only the approximate quantities owned respectively by dealers and manufacturers.
3/ Includes stocks on the Island of Puerto Rico.
4/ For explanation of stocks included in this classification see footnote 6 on page 11.
5/ Does not include stocks owned by Netherlands Indies Produce Corporation held in the free trade zone.

Table 4. - Conversion factors for adjusting for losses in weight incident to stemming, handling, sweating, and drying, all types of tobacco.

Type	U.S. type number	Factors to multiply by to convert weights	
		Stemmed stocks to unstemmed equivalent	Unstemmed stocks to farm-sales weight
Flue-cured	11-14	1.282	1.12
Virginia fire-cured	21	1.299	1.18
Eastern District fire-cured	22	1.316	1.04
Western District fire-cured	23	1.316	1.04
Henderson Stemming	24	1.316	1.125
Burley	31	1.351	1/ 1.12
Southern Maryland	32	1.351	1.02
One Sucker	35	1.429	1.09
Green River	36	1.316	1.13
Virginia sun-cured	37	1.316	1.13
Pennsylvania Seedleaf	41	1.387	1.11
Gebhardt	42	1.370	1.12
Zimmer	43	1.401	1.13
Dutch	44	1.418	1.115
Puerto Rican	46	1.275	1.17
Connecticut Broadleaf	51	1.292	1.07
Connecticut Havana Seed	52	1.299	1.07
New York and Pennsylvania Havana Seed	53	1.364	1.135
Southern Wisconsin	54	1.300	1.06
Northern Wisconsin	55	1.333	1.035
Georgia and Florida sun-grown	56	1.275	1.245
Connecticut Shade-grown	61	1.224	1.135
Georgia and Florida shade-grown	62	1.205	1.16
Miscellaneous Domestic	71-73	2/ 1.333	2/ 1.09
Foreign-grown cigar-leaf	81-84	2/ 1.205	3/
Foreign-grown cigarette and smoking tobacco	90	2/ 1.205	3/

1/ Effective April 1945, factor changed from 1.111 to 1.12 to take into account higher redrying losses.

2/ Tentative factor.

3/ Factor has not been established.

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1945, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

2/ Subject to revision.

3/ For explanation of stocks included in this classification see footnote 6 on page 11.

4/ Does not include stocks owned by Netherlands Indies Produce Corporation held in the free trade zone.

* Revisions in January 1 report.
